

<u>Cell Process</u>	<u>Definition</u>	<u>Function</u>	<u>Energy Required?</u>	<u>Example / Drawing</u>
Diffusion				
Facilitated Diffusion				
Osmosis				
Active Transport				
Endocytosis				
Exocytosis				

Label the cell membrane diagram below with the following parts:

- |                    |                      |
|--------------------|----------------------|
| Inside cell        | Phospholipid bilayer |
| Outside cell       | Peripheral protein   |
| Channel protein    | Phosphate heads      |
| Carbohydrate chain | Marker protein       |
| Embedded protein   | Lipid tails          |
